

BY THE GOVERNOR OF THE STATE OF GEORGIA.

A PROCLAMATION

CELIAC DISEASE AWARENESS DAY

- WHEREAS:** Celiac disease is one of the world's most prevalent genetic autoimmune diseases, affecting an estimated three million Americans, many of whom are undiagnosed; and
- WHEREAS:** Celiac disease causes the body to attack its own small intestine, which can lead to many other devastating health conditions, including cancer; and
- WHEREAS:** Celiac disease results in extraordinary economic and productivity costs to both the public and private sectors from employee and student absenteeism, as well as repeated, inconclusive visits to healthcare providers; and
- WHEREAS:** There is no medication or cure for celiac disease—the only treatment is a lifelong, strict gluten-free diet that studies have shown to still be rather ineffective for many people; and
- WHEREAS:** With the help of organizations and non-profits such as the Celiac Disease Foundation, much progress has been made improving the quality of life and health of individuals with celiac disease by advancing government support for biomedical research to develop diagnostic tools, life-improving treatments, and a cure for celiac disease, and to raise public awareness of this serious disease; now
- THEREFORE:** I, BRIAN P. KEMP, Governor of the State of Georgia, do hereby proclaim May 16, 2023, as CELIAC DISEASE AWARENESS DAY in Georgia.

In witness thereof, I have hereunto set my hand and caused the Seal of the Executive Department to be affixed this 17th day of April in the year of our Lord, Two Thousand and Twenty-Three.

B. Kemp
